

KPM Ltd. is a ISO:900 certified, rotating equipment manufacturing, distribution and renewal business serving the industries of North America and the world.

For 25 years KPM Ltd. has been a supplier of high quality, long-life, abrasion-resistant components that exceed the general standards for strength, durability, corrosion and wear resistance. KPM has achieved special approvals from Lloyd's of London and several OEM heavy equipment manufacturers for repairs of critical componentry

KPM Ltd. supports end-users, OEMs and re-manufacturers with world class surface enhancement and component renewal through our network of professional factory dealers and representatives

WE BRING:

**VALUE
PASSION
INTEGRITY
TRUST**

Our vision is to be the Best in the World at providing:

- Service which meets or exceeds the initial and continuing needs and expectations of our customers**
- Products at a level of quality and reliability second to none**
- Innovative surface engineered solutions**
- Magnetic speed and torque coupling technology**

Wear Solutions

ENDURMAX

Enduramax ceramic cyclone liners can be designed to fit any cyclone application. Our liners can significantly reduce maintenance and downtime costs for mineral processors

SUPERSLEEVE

KPM Supersleeve™ product line is carefully engineered to provide a longer life expectancy and reduce cost. Our product line is blended with alloys which provide a strong coating to suit critical applications.

ENGINEERED CERAMIC LININGS

Various grades of high performance engineered ceramic materials installed for optimal selection in your application including high impact Zirmax and monolithic Endurmax RB iC materials

Typical components include slurry pump volutes suction liners, backing plates, elbows, pipes, tubes, bushings, valve bodies, chutes, etc.

Design and Engineering Services

KPM has a long history of providing innovative solutions to our customers problems. With a broad range of experience and resources to draw upon we pride ourselves on solving problems others can't. Below are a few examples of the services we can provide.

Packaged Pump Systems

Drafting and design, custom fabrications, complete electrical control systems, installation and commissioning of self-contained pump systems configurable in any option from diesel, gasoline or electric prime movers and for any GPM and NPSH.

Prototyping

If you have a problem that needs a solution, or an idea that needs implementation KPM can do that for you. We have created a large variety of items for customers in the mining, oil and gas and other industrial sectors.

Reverse Engineering

Using a variety of tools such as laser scanners and additive printers we can offer solutions to problems such as obsolete parts. If a component on your equipment is worn and no longer available, we can recreate and build a new part that will match the dimensions and performance of the original.

MILLWRIGHT SERVICES

MAINTENANCE

We provide routine maintenance and repair work for industrial equipment and machinery

With long term maintenance contracts provided by our experienced millwrights you'll be getting these benefits.

Reduced rates and costs

Increased uptime

Increased equipment life expectancy

FIELD REPAIR

We are dedicated to help our clients with the ever growing need for proper field installations and on-going critical equipment maintenance.

Whether it is a planned or an emergency repair situation our staff is capable of keeping you operating. We have certified millwrights, welders, machinists and skilled labourers ready to assist you

ALIGNMENT AND INSTALLATION

We install, maintain, repair and offer training for all machinery and equipment we manufacture or distribute.

CNC MACHINING

Our skilled machinists operate our CNC machines and create custom machined parts for applications in multiple industries and sectors such as mining, manufacturing, power generation, and robotics to name just a few.

Capabilities:

Turning,
Milling,
Multi-Axis/Live tooling

Equipment:

Haas TL3 Flat Bed Lathe,
Haas SL-30 Slant Bed Lathe with Live Tooling,
Haas SL-40 Slant Bed Lathe,
Haas VF-6 Vertical Mill with 4th Axis

For custom jobs to production runs KPM's CNC department has you covered!

KPM PUMP SERVICES

RESOLVE REPAIR RENEWAL

With over 30 years experience in the pump field KPM is your go to thfor your pumping needs. We are distributors for BJM/Stancor, Atlas Slurry, National and Simflo pumps. We provide sales, service and repair of the following types of pumps and more.

Vertical turbine -Centrifugal -Horizontal split case
-Submersible- Mixed flow

IN SUCH INDUSTRIES AS:

Municipal / Mining / Agriculture / Forestry / Oil and Gas

If you are facing accelerated wear issues caused by pumping abrasive or silty water, or are looking to increase service life and replacement intervals in your equipment we also offer pump upgrades. Some of our upgrade services includes:

- Hardened bowl wear rings and hardened impeller wear rings
- Ever tough coating on impellers
- Zero maintenance stuffing box
- Hardened bearing surfaces on shafts
- Upgraded interbowl bearings
- SuperSleeves
