

# HEAVY VEHICLE COMPONENT REPAIR

## ABOUT KPM

KPM is approved for ultra-class haul truck component remanufacture to OEM specifications.

KPM can salvage over 100 different components from all major manufacturers.

KPM's proprietary technology produces much more durable overlays which provide the highest return for service dollar and offer several times the performance improvement, compared to Laser or HVOF.

KPM has been an ISO 9001 certified company since July 2002.

KPM was certified by Lloyd's of London in April 2006.

We were commissioned by BC Ferries to resurface all the prop shaft bearing journals for the Queen of Surrey.

## OUR SERVICES

### WHAT WE SERVICE:

#### KOMATSU

- HD325-8
- HD405-8
- HD465-8
- HD605-8
- HD785-8
- HD1500-8E0
- 730E-10
- 830E-5
- 860E-1K
- 930E-5SE
- 980E-5SE
- 980E-5

#### CAT

- 785
- 789
- 793
- 793F
- 794 AC
- 796 AC
- 797 F
- 798 AC
- 770
- 772
- 773
- 775
- 777

#### LEIBHERR

- T264
- T274
- T284

#### HITACHI

- EH5000AC-3

## LARGE CAPACITY ROBOTIC SPRAYING

- Zero defect spraying
- Faster turnarounds
- Cost efficiency
- Overlay consistency

## QUALITY

OEM Certified Remanufacturing Approvals

## RELIABILITY

35 Years of Process Development and Proven Performance

## LOWEST COST

Proprietary amorphous load sensing technology provides unmatched service life and lowest cost of ownership

## QUICK TURNAROUND

Get your components remanufactured and returned within 10-14\* days

## SUSTAINABILITY

80-90% Carbon Reduction in KPM Reman vs buying new

*\*under certain conditions, contact for details*
